27 octobre 2007: Présentation par le Professeur Denis Bourgeois, coordinateur du projet EGOHID, des objectifs d'EGOHID II liés à la mise en place d'un réseau sentinelles de dentistes (WP9) devant l'assemblée générale de l'Organisation Européenne de la Fédération Dentaire Internationale, organisation qui regroupe les présidents et délégués des associations dentaires européennes.

Un appel à déclaration d'intérêt a été à cette occasion lancée afin que les associations qui le souhaitent puissent intégrer la phase pilote du projet qui se déroule au premier semestre 2008. L'ORE, dans le cadre de la commission prévention, a retenu cette thématique comme une des trois priorités pour la mandature à venir, au même titre que l'organisation d'une journée européenne de prévention et du rôle que doit jouer la profession dentaire dans la détection et prise en charge des cancers oraux.

27th October 2007: During the General Assembly of the European Regional Organization of the International Dental Federation, Professor Bourgeois, EGOHID II project leader, presented the objectives of the project related to the implementation of a sentinel network of dentists (work package 9) to the European Presidents and representatives of the European Dental Associations.

He also addressed to the National Dental Association a call for expression of interest in taking part in the pilot phase of EGOHID project which will be implemented during the first half of 2008.

In the framework of the Prevention Committee, E.R.O. has selected this topic as being one of the three priorities of the future term, as well as the organisation of a European Day of Prevention and the role that the dentists should play in the detection and care of oral cancers.
